

**M.L. CAMPBELL INTRODUCES AGUALENTE™
WATER BORNE PRE-CAT CLEAR LACQUER**

(Fort Erie, Ontario) – M.L. Campbell, a leader in the wood finishing industry, introduces Agualente™ Water Borne Pre-Cat Clear Lacquer to its line of wood finishing systems. Agualente is a technically advanced low VOC, self-sealing, easy sanding, one-component coating for interior wood surfaces. Its new technology provides trouble-free application as well as a beautiful appearance, mirroring its solvent-based counterparts – pre-catalyzed lacquer. Agualente is ideal for kitchen, bath or general interior use and delivers the high performance finish you expect from M.L. Campbell.

Agualente Water Borne Pre-Cat Clear Lacquer is GREENGUARD Indoor Air Quality Certified®, a stringent performance-based standard used to define products with low chemical and particle emissions for use indoors. GREENGUARD Certification was developed by the GREENGUARD Environmental Institute (GEI) in conjunction with the U.S. Environmental Protection Agency (USEPA).
