AGUALENTE™

WATER BORNE PRE-CAT CLEAR

AGUALENTE™

Agualente Water Borne Pre-Cat Clear Lacquer is a technically advanced self-sealing, easy sanding, one-component coating for interior wood surfaces. Its new technology provides trouble-free application as well as a beautiful appearance, mirroring its solvent-based counterparts — pre-catalyzed lacquer. Agualente is ideal for kitchen, bath or general interior use and delivers the high performance finish you expect from M.L. Campbell.

AGUALENTE OFFERS UNIQUE ADVANTAGES:

- No measuring provides trouble-free use
- GREENGUARD Certified
- Totally HAPs free
- Low in VOC – under 100 grams per liter
- Shelf life is 1 year
- Low odor
- Available in Dull, Satin or Gloss
- Formaldehyde free
- Exceptional film build
- Excellent adhesion on both closed and open grain substrates
- Mar and scratch resistant
- Quick dry to sand and recoat times
- Increased production from fast pack and stack times
- Ready to spray and easy to apply with any equipment

AGUALENTE TEST AND PERFORMANCE CHARACTERISTICS:

Agualente has undergone rigorous quality testing to verify performance and application characteristics. The M.L. Campbell laboratory has formulated Agualente to meet or exceed the required performance level established by KCMA for finishes. Agualente meets the AWI finishing standard for pre-catalyzed lacquers. Agualente has been tested utilizing the following ASTM and KCMA test methods: 5 = Excellent, 4 = Very Good, 3 = Good, 2 = Fair, 1 = Poor.

Print Resistance

Purpose: Test the ability of the finish to be print-resistant. No print after 24-hour dry time. Agualente has an Excellent rating of 5.

Hot And Cold Check Resistance

Purpose: Test the ability of the finish to withstand hot and cold cycles for prolonged periods. Passes 20 cycles. Agualente has an Excellent rating of 5.

Cross Hatch

Purpose: Test the ability of the finish to adhere to various substrates and/or finishes. Agualente has an Excellent rating of 5.

Blocking

Purpose: Test the ability of the finish to withstand any finish defects from stacking or packing. Agualente has an Excellent rating of 5.

Wet Heat Resistance

Purpose: Test the ability of the finish to withstand high heat for long periods. Agualente has a Very Good rating of 4.

Edge Soak

Purpose: Test a coating's ability to perform in relation to a coated cabinet door's resistance to detergent and water. Agualente has an Excellent rating of 5.

Chemical Resistance Evaluation

Purpose: Test the ability of the finish to withstand substances typically found in kitchens and bathrooms. Exceeds AWI specifications for pre-catalyzed lacquer chemical resistance.

Vinegar, 24 hrs	Excellent rating of 5
Lemon Juice, 24 hrs	Excellent rating of 5
Orange Juice, 24 hrs	Excellent rating of 5
