

EUROBILD™

INTERIOR 2-COMPONENT POLYURETHANE SYSTEM

EURO
Series

European Technology • Full Fill (up to 12 mils.) • Quick Dry
Exceptional Chemical Resistance and Durability for Tough Environments • Clear and Pigmented

EUROBILD™

The new Euro Series from M. L. Campbell combines the craftsmanship of European wood finishing technology with easy-to-apply characteristics. The EuroBild line is the first group of interior products available in the Euro Series. It's a popular choice for exotic woods and many upscale and high performance applications. EuroBild products come with a proven heritage, too: they're based on time-tested European, 2-component technology. For you, that means a lasting, beautiful finish that always delivers superior chemical resistance, durability and full fill.

Ideal for specialized interior applications:

- Office furniture and environments
- Conference room tables
- Pub and bar environments
- Marine interiors
- Store fixtures
- Musical instruments
- For many more specialized applications, just ask your M.L. Campbell Lacquer Specialist

EuroBild products include clear topcoats and sealers, plus pigmented topcoats and primers, and can be applied up to 12 dry mils.

Compatible with M.L. Campbell WoodSong II™ stain line and Microton™ dye stains.

Thousands of colors are available through your Distributor Stain Studio.™

Sheens include the extreme wet look, gloss, satin and dull. EuroBild products are catalyzed with color coded catalysts.

M.L. Campbell offers a special EuroBild measuring cup for shop convenience (950-9912-000).
