

WOOD FINISHING SYSTEMS

# MICROTON™ & AZOTON™ FAST DRY DYE STAINS

\*Indicates M.L. Campbell Ready Made Packaged Color

*The stains are shown as they appear on carefully selected red oak veneer. However, as wood is a natural material, slight variations occur in texture, color grain configuration and stain acceptance. Because of this, we are unable to guarantee stains will be an exact match and suggest stains are tested on the wood they are to be applied on before making a final color selection.*

WOOD FINISHING SYSTEMS

## WOODSONG II

HIGH PERFORMANCE STAIN SYSTEM

M.L. Campbell has developed and designed the WoodSong® II High Performance Stain System to give you complete flexibility of color, workability and application by offering you the right products for a specific job or shop environment. These formulations were also designed to provide you with a better work environment by keeping HAPs and VOCs at the lowest possible levels.

**WoodSong® II High Performance Solvent Stain System**
